

PSM

Integrity Solutions

WE DELIVER SERVICES & SOLUTIONS
TO COMPANIES THAT PROVIDE ENERGY
TO THOSE WHO NEED IT.

What truly distinguishes PSM

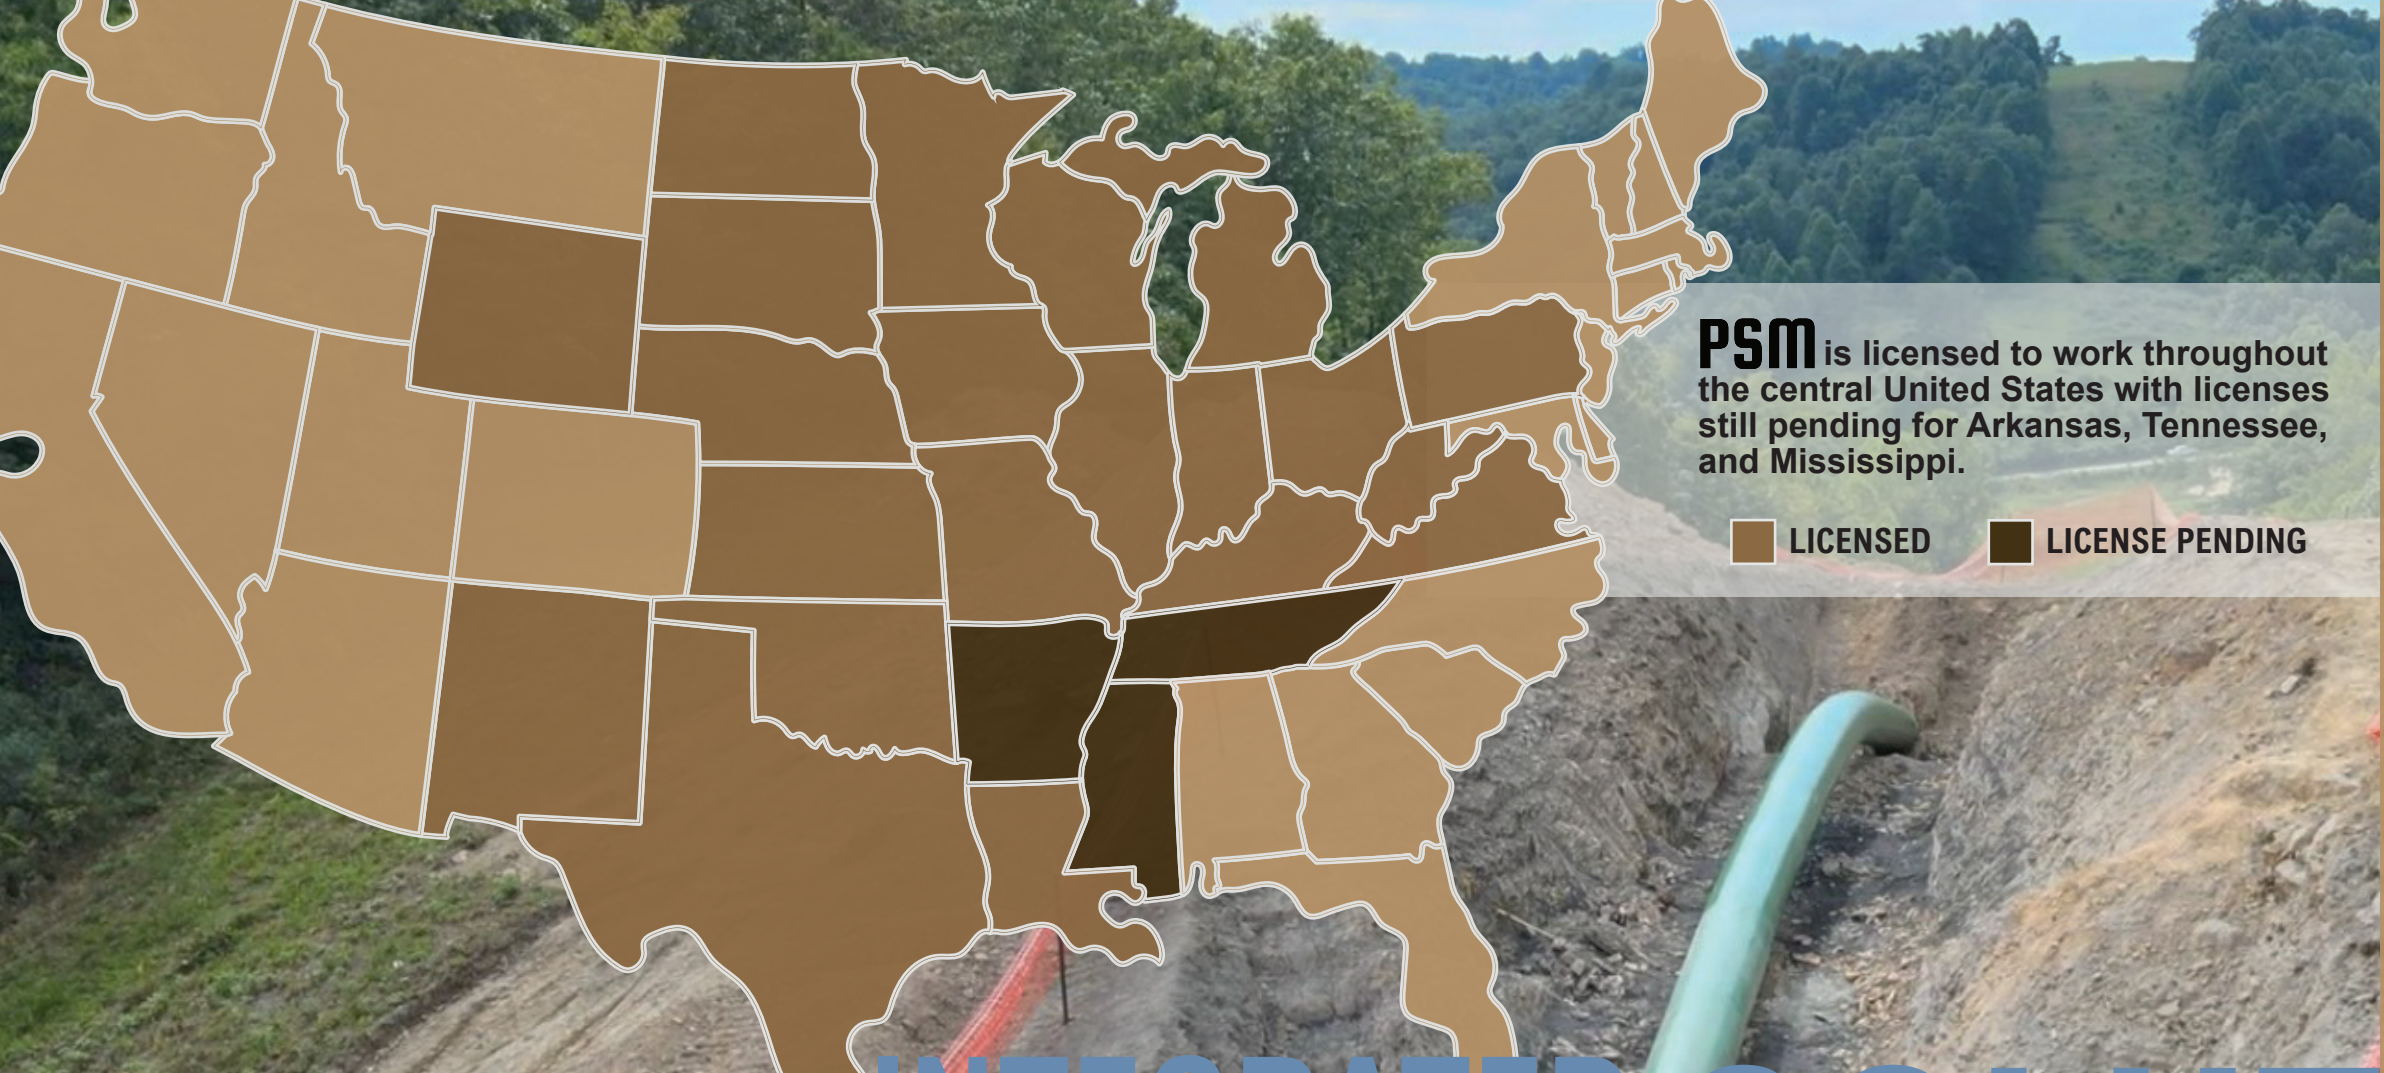

is our commitment to executing services with
precision; prioritizing safety and timeliness - all while upholding
environmental and financial stewardship.

PSM Integrity Solutions is the product of over a century of construction knowledge and experience. We offer unparalleled project management paired with experienced field experts. Our focus isn't just on project delivery; our priority is true partnership - serving our clients with an unwavering dedication to excellence.

At PSM, we remain dedicated to deliver finished projects with quality and operational safety. We approach projects of every scale, and ensure our availability 24/7. Our commitment to each project reflects our clients' priorities and our dedication to servant leadership.

PSM was inspired from a foundation of Integrity. Not only is it a business line we offer, but most importantly, it is the very thing that defines us and our core values.

Mike Smithey

PSM is licensed to work throughout the central United States with licenses still pending for Arkansas, Tennessee, and Mississippi.

INTEGRATED SOLUTIONS

PIPELINE INTEGRITY

PSM Integrity Solutions offers a complete solution for your pipeline integrity needs. We take care to ensure your project meets all local, state, federal and industry regulations. Whether you require assistance for only a portion of our services or a complete pipeline integrity solution, PSM can offer a customized package of services for your specific pipeline integrity system. Pipeline integrity is a crucial part of your pipeline. In response to the shifting federal regulations, we continuously develop and train our team of professionals to be safe and efficient at every job site. At PSM, we partner with our customers to safeguard and guarantee the structural reliability of every pipeline. PSM maintains this focus on asset integrity from commissioning to completion.

PIPELINE REPAIR & MAINTENANCE

Our operations and maintenance division can respond to all client needs across the United States. From emergency repairs to major renovation and maintenance projects, PSM has the experience our clients have come to expect.

PIPELINE CONSTRUCTION

We are a leader in pipeline project construction for liquids and gas transmission. We install pipelines ranging from 4 to 36 inches in diameter. PSM has the equipment, resources and experienced industry professionals to manage and construct pipelines across the United States. Our teams are focused on safety, quality and efficiency resulting in a cost-effective project executed on time and within budget.

FACILITY CONSTRUCTION

PSM Integrity Solutions offers complete facility construction services. PSM has the equipment, resources and experienced industry professionals to fabricate, install or modify facilities in any part of the country. We ensure all projects are completed in a safe manner, executed on time and within budget.

HEALTH, SAFETY & ENVIRONMENTAL

PSM
ACCIDENTS
ZERO

At PSM Integrity Solutions, safety and environmental stewardship are not just meeting topics, but deeply ingrained principles in our culture. Our work environment prioritizes safety, well-being, and productivity.

Our team is the heart of our organization, and their well-being is our primary concern. Our commitment goes beyond safe activity - *prevention* is our guiding principle, shaping every decision we make.

We uphold our promises, for safety is an uncompromising value. Each level of our management serves as a leader, providing the necessary resources to fortify our commitment. Our supervisors embody this commitment, translating policies into tangible safety measures on the ground. As employees, we are not only custodians of our responsibilities but also guardians of the safety of our colleagues, the public, and the environment.
